

CL-CGK-A Cabinet light

User manual

Technical specification

Model	CL-CGK-5W-300	CL-CGK-8W-500
Main features	Hand wave sensor, white colour temperature change and dimmable	
Voltage	DC 12 V	
Power	5 W	8 W
Light source type	SMD 2835 white LED	
LED quantity (pcs)	54	96
CRI (Ra>):	>80	
IP rating	IP 20	
Light colour mode	White colour dimmer 3000 K – 6000 K	
Luminous flux	350 lm +/- 10%	560 lm +/- 10%
Brightness adjustment	20% - 50% - 100%	
Sensor type	Hand-wave sensor	
Detection range	3–5 cm	
Material of housing	Aluminium + PC (milk white)	
Product size	300 x 30 x 11.5 mm	500 x 30 x 11.5 mm
Lifetime	50,000 hours	
Warranty	2 years	
Package dimensions	370 mm(L) x 112 mm (W) x 40 mm (H)	570 mm (L) x 112 mm (W) x 40 mm (H)
Weight with packaging	0.217 kg	0.347 kg

Safety notices

Electrical work safety advice and tips

- Make sure the input voltage is correct.
- Avoid placing the light in the rain, outdoors or in moist areas as it may damage or short-circuit the device.
- Do not open the LED light for inspection or re-wire the electronic circuits if you are not a professional. Opening the light engine might void your warranty.
- Avoid using the device under -10°C and above 40°C temperature.

DIY tips and safety advice

- This task will involve working at height. A safe system of work should be established and maintained, in order to prevent injury.
- Consider your safety! Think about the potential risks and dangers of the work and the steps you should take to avoid them.
- Personal protective equipment. Make sure that you are equipped with suitable and sufficient personal protective equipment. This could include eye protection, face mask, protective overalls, safety footwear and gloves.
- Ensure that the work area is sufficiently illuminated.
- Check that the tools you will be working with are in a good operating condition. For the installation, you will need a cordless drill with drill bits or a screwdriver.
